

CPassive

```
graph BT; CPassiveGalaxy["galaxy::CPassiveGalaxy"] --> CPassive["CPassive"]; CPassiveVort["vorticon::CPassiveVort"] --> CPassive
```

The diagram illustrates a class hierarchy. At the top is a box labeled 'CPassive'. Below it, two boxes are positioned side-by-side: 'galaxy::CPassiveGalaxy' on the left and 'vorticon::CPassiveVort' on the right. A horizontal line connects the bottom of these two boxes, and a vertical arrow points upwards from the center of this line to the bottom of the 'CPassive' box, indicating that both 'CPassiveGalaxy' and 'CPassiveVort' inherit from 'CPassive'.
